Questions related to oral health to ask your dentist/cancer care team

- When can I expect side effects to start?
- How long might they last?
- How can I prepare for radiation side effects to the mouth?
- What steps can I take for my mouth to feel better during treatment?
- What medicines can help with dry mouth?
- What symptoms or problems should I call the doctor about?
- What pain medicine and/or mouthwashes could help me?
- Should I meet with a certified oncology dietitian to learn about proper nutrition while on treatment?
- How often should I visit the dentist?
- When can I expect to have normal taste and saliva production after treatment is completed?
